PROFESSIONAL SUMMARY

Information Technology undergraduate at SLIIT with hands-on experience building full-stack web applications using React, JavaScript, Java/Spring Boot, and MySQL. Comfortable working across the stack — designing UI components, building REST APIs, modeling relational data, and integrating third-party services and AI APIs. Familiar with async programming, JWT-style authentication, and clean code practices. Eager to grow as a Next.js / Node.js developer at Olee AI by shipping reliable end-to-end features alongside AI, mobile, and product teams.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript (learning), Python, Java, SQL
Frontend	React.js, Next.js (learning), HTML5, CSS3, Component-based UI, Routing, State management, Data fetching
Backend	Node.js (learning), Java, Spring Boot, REST APIs, Server-side application flow, Async programming
Databases & ORMs	MySQL, Relational data modeling, SQL queries (joins, aggregations); learning Prisma & MongoDB
Auth & Security	JWT/session-based authentication, Role-based access control, Input validation
Tools & Workflow	Git/GitHub, VS Code, Postman, REST API integration, n8n automation
AI & Data	Python (Pandas, NumPy, Scikit-learn, PyTorch), LLM/API integration, NLP basics
Soft Skills	Problem-solving, Logical thinking, Collaboration, Adaptability, Communication

PROJECTS

AI-Powered Job Application Assistant (resumeX)

Apr 2026

Tech Stack: React.js, Python, REST APIs, NLP, Machine Learning

- Built a full-stack web app with a React frontend and Python REST API backend that analyzes resumes against job descriptions and returns ATS match scores, cover letters, and role predictions.
- Designed component-based UI, async API calls and state management to deliver a responsive end-to-end user experience.

Sri Lanka Vehicle Search Telegram Bot (v-chat)

Apr 2026

Tech Stack: JavaScript, n8n, Groq AI (LLaMA), Telegram Bot API, ScrapeNinja

- Engineered an automation workflow that integrates multiple third-party APIs (LLM, scraping, Telegram) to return live, unified vehicle listings from Riyasewana.lk and ikman.lk.
- Used an LLM to parse natural-language queries into structured filters and orchestrated async calls across services with robust error handling.

Web-Based Pharmacy Management System

Tech Stack: *Java, Spring Boot, React, MySQL, REST APIs*

- Built a full-stack CRUD web app for inventory, prescriptions and patient records with a React frontend consuming Spring Boot REST APIs.
- Designed a normalized MySQL schema, implemented role-based access and server-side validation to enforce data integrity and security.

Stock Price Prediction Web Tool (LSTM)

Tech Stack: *Python, PyTorch, yFinance, REST integration, Matplotlib*

- Integrated the yFinance API for asynchronous market-data ingestion and built a deep-learning prediction module exposed through a clean Python interface.
- Visualized predicted vs. actual trends in a frontend-friendly format suitable for embedding in a web dashboard.

Mental Health Treatment Predictor

Tech Stack: *Python, Pandas, Scikit-learn, REST-style API design*

- Developed a classification model with structured input/output suitable for serving via a REST endpoint.
- Documented the data flow and model contract to enable future integration into a web frontend.

Cryptocurrency Market Analytics

Tech Stack: *Python, Pandas, yFinance, Matplotlib*

- Consolidated multi-asset data via API ingestion and produced visual analytics ready for consumption by a web UI.
- Practiced clean modular code and reusable functions to keep the data layer separate from presentation.

EDUCATION

BSc (Hons) in Information Technology – Specializing in Data Science

Present

Sri Lanka Institute of Information Technology (SLIIT)

Relevant coursework: Web Development, Object-Oriented Programming, Database Management Systems, Data Structures & Algorithms, Software Engineering.

GCE Advanced Level – Physical Science Stream

Nov 2020 – Dec 2023

Taxila Central College

Mathematics (C), Physics (B), ICT (B), English (A).

Diploma in Information & Communication Technology

Aug 2020 – Nov 2020

ICBT Campus

Successfully completed.

GCE Ordinary Level

2015 – 2020

Taxila Central College

9 A passes.

LICENSES & CERTIFICATIONS

Ultimate AWS Certified AI Practitioner (AIF-C01)

Issued Apr 2026

Udemy

COURSES

- Data Science Job Simulation – British Airways (Forage): data cleaning, analysis and stakeholder communication.
- Self-paced learning: Next.js fundamentals, TypeScript basics, Node.js & Express, REST API design, JWT authentication, Prisma ORM.

LANGUAGES

English (PTE 77 / Proficient) · Sinhala (Native)

PERSONAL DETAILS

DOB: 27 April 2004 · Nationality: Sri Lankan · NIC: 200411804090
Address: 204 D/2, Thanayam Place, Ingiriya, 12440, Sri Lanka
